NOTES AND TIPS:

- The course comes out to around 1.24 miles, following the above path.
- The obstacle between E and F is intentionally placed to teach the user how to navigate around obstructions.
- The course starts from the post labeled as “Loyal”.
- “Trustworthy” and “Loyal” are exactly 50 feet apart and can be used to measure the user’s stride.
- Watch your distance carefully, otherwise you may get confused.
- Be mindful of your heading on the longer runs, a degree off can be a large distance over 1200 feet.
- The map on the back shows the points relative to park features. It is not accurate with regards to headings or distances.
